

BIO

Mixing elements of funk, soul, and jam into a sturdy base of rock n' roll, Connecticut's Joon is a band with a sound that's as smooth as it is large. Joon has built a reputation of being a vocal powerhouse, delivering high energy in every performance with a sound similar to that of Hall & Oates, Dave Matthews Band, and Red Hot Chili Peppers.

The band has been touring all over the eastern states at notable venues like MGM Springfield, Brighton Music Hall, Visulite Theater, Rockwood Music Hall, and many others since their start in 2016.

They have shared the stage with acts such as Ripe, the Hip Abduction, Zach Deputy, Aqueous and held featured slots at major festivals including High Hopes Music & Arts Festival in 2018 and Disc Jam Music Festival in 2019. Crunchy riffing, harmonized vocals, and a ton of energy filled the band's 2017 debut album, "Back To Reality." A live set from Joon, which often borders on downright electric, makes for a perfect cap to an eventful evening.
